

MATLAB Programming Training Course !!!

About Course:

The course will give the fundamental knowledge and practical abilities in MATLAB required to effectively utilize this tool in technical numerical computations and visualization in other courses.

At iFlame Institute, you will be imparted knowledge and training by working professional from scratch.

Course Content:

- Introduction of MATLAB
- Different functionalities in MATLAB
- Coding in MATLAB
- SIMULINK in MATLAB
- Example of BASIC MATHEMATICS FUNCTIONS
- Example of IMAGE PROCESSING
- Example of VOICE PROCESSING
- Example of CONTROL SYSTEM
- Example of VIDEO PROCESISNG
- Example of OBJECT IDENTIFICATION IN VIDEO

Course Outcomes:

After learning this course, student will be able to

- use the MATLAB help facility
- do simple (but large) calculations and print out graphs
- express programming & simulation for engineering problems.
- connect programming files with GUI Simulink.

program scripts and functions using the Matlab development environment.
